PEOPLE RETURNING TO CRESCENT CITY

Opinion Prevails That the Fever Has Run its Course.

NEW ORLEANS IS VERY HOPEFUL

Fewer Cases Are Now Under Treatment Than at Any Time Since Aug. 9th—Situation at Pensacola is Very Critical—Nine New Cases.

New Orleans, Sept. 26.—Up to noon today there were 20 new cases of yellow fever and two deaths.

New Orleans, Sept. 26.—Fever cases than usual were left over from Sunday for investigation and the early report of new cases today was somewhat under the average.

Two deaths occurred during the night so that it seemed probable that the number of fatalities at the end of the day might exceed those of Sunday.

Generally, a big report of cases comes on Monday, buta period has arrived when the doctors are confident that the disease will begin to show a decline and may break the rule that has prevailed since the fever started.

Excellent Weather Prevails.

With September practically gone and the fever under control, New Orleans is looking to a rapid clean up of the prevailing fever her. A spell of excellent weather has set in and as the days grow cooler there will be a steady disappearance of mosquitoes even before frost comes. There is a steady inpour of people from all sections of the country, the general impression being that the element of risk is now slight.

What can be done by vigorous handling of a yelow fever situation under modern methods is shown in the case of Tallulah. Conditions have so much improved that Dr. Chaissagnas considers the necessity no longer exists for his remaining there, and is returning home.

The disease is now principally confined to the negroes, and it is steadily growing les samong them. In less than a month it is expected that there will not be a vestige of the fever left there.

That the stegomyia is disappearing from New Orleans is shown by the report of Dr. Berry, who is in charge of the originally infected district. Dr. Berry says that for a week he has found none of the fever breeding mosquitoes in his district.

The most favorable feature of the report for the past 24 hours for New Orleans is the small number of persons shown to be now under treatment, 288. This is the smallest number since Aug. 8, and gives hope to the authorities in their work of speedily stamping out the disease.

The traveling men of New Orleans, of whom there are several hundred, are arranging a large entertainment, the funds from which will be contributed to the proposed isolation hospital. It is probable that the date of the entertainment will be at the final eradication of the fever.

Situation at Pensacola.

Pensacola, Fla., Sept. 26.—Two new cases of yellow fever have been reported by the state health board since 6 o'clock last night, making a total for Sunday nine.

Thirty-two cases are now under treatment. The cases are scattered all over the city.

Two deaths from yellow fever reported at 10 o'clock this morning, the victims being Jack Daniels, who was taken ill Sept. 23, and John F. Wilson whose case was diagnosed as yellow fever on Sept. 21.

Negro Woman Cause of Murder.

New York, Sept. 26.—In a quarrel between two white men over the affections of a negro woman, a murder was committed last night in Oyster Bay. The victim was John Murray, a laborer. He was shot by an Italian, who escaped with the authorities in his pursuit. The murder occurred in

ATTACK FORTUNE TELLERS.

Several Occupants of the Camp Are Injured by the Assailants.

Milwaukee, Sept. 26.—A camp of itinerant Scotch fortune tellers in Greenville near this city was attacked Sunday night and the occupants so roughly handled that one woman sustained serious injuries and another woman and a man will be confined to their beds for some time.

The injured are

Marguerite Drummond, aged 40, severe concussion of the brain.

Alexander Drummond, aged 28, hole in forehead.

Anna Drummond, scalp wound and body bruised.

The Scotch people have been carrying on their work in this vicinity for some time and at the last camping place became involved in numerous quarrels and personal encounters with Mr. Ramlow, who lives near the grove, in which the fortune tellers had pitched their tents.

Mr. Ramlow's son and Frank E. Geiger, a companion, listened to a recital of the wrongs alleged to have been practiced on the father and in their wraths dettrmined to wipe out the highlanders' camp. Clubs and other missiles were procured and the occupants were worsted. The two men who planned and executed the attack are now in jail.

USED "BLACK HAND" METHODS.

Young Girl Is Beaten Unmercifully by Supposed To Be Blackmailers.

New York, Sept. 26.—Irene Grossman, a girl of 16 years, was found clubbed into insensibility in the hallway of her home at 542 West One Hundred and Forty-second street early today.

The attack was but a repetition of a series of entries into the residence which were intended to enforce, by the "black hand" methods, payments of money for immunity from attack. Beginning Friday night a negro visited the house nightly, appearing only to Miss Grossman and escaping when frightened by her screams. Despite the lookout set for him by the family, he succeeded today in reaching Miss Grossman before she had a chance of giving a warning.

The girl's brother told the police that his sister had started for an early morning walk when she was attacked. He heard her scream and ran into the hallway, where he found her unconscious, but saw nothing of the man.

NEGRO SHOT BY SHERIFF.

Black Brute Attempted Assault in a Missouri Town.

St. Louis, Sept. 26.—A negro attempted to assault the wife of Deputy Sheriff A. J. Shores, at Clayton last night, and was shot by Shores and badly wounded.

The shooting attracted a crowd of negroes from the congregation of a negro church, who attempted to lynch the negro, Robert Taylor, but were prevented, and Taylor was safely landed in jail.

Deputy Shores had alighted from a street car and hearing a woman's scream, and seeing a negro passing, he fired and the negro fell.

Later he discovered it was his own wife whom the negro had seized as she was on her way from a neighborhood visit. He found her in a faint lying on the sidewalk.

No Extra Session in Alabama.

Birmingham, Ala., Sept. 26.—It looks very much as if there will be no special session of the general assembly, as was some time ago intimated by Governor Jelks, who suggested that an extra session might be called by him for the distribution of the state's surplus to the schools. The big surplus reputed to exist is now thought not to be and public expressions of opinion here have been generally against an extra session. It is now believed that governor Jelks has sounded public opinion sufficiently to find it in the negative, and hence will not call the extra session. He said yesterday that it was very doubtful if he would do so. It has been thought in some quarters that the railroads desired an extra session so as to eliminate [illegible]

KANSAS CITY BANK CLOSES ITS DOORS

Well Known Financial Institution Goes Into Liquidation.

DEPOSITS OVER FOUR MILLION

Notice of Suspension Is Announced and that All Depositors Will Be Paid by Large Trust Company—Bad Loans Cause of Failure.

Kansas City, Sept. 26.—The Kansas City state bank, Wiley O. Cox., president, failed to open its doors today, having gone into voluntary liquidation. The bank had loaned $168,000 to the bank of Salmon & Salmon and Clinton, which failed last July, catching depositors for several thousand dollars.

The Kansas City state bank was organized in 1888 and had a capital of $200,000. The last statement showed loans of $4,000,000 deposits, $4,750,000, surplus $140,000.

The following notice was posted on the door at the opening hour today:

"This bank has gone into voluntary liquidation through the Fidelity Trust company. Checks, drawn against the bank will be paid on presentation on the Fidelity Trust company, at Ninth and Walnut streets, Wiley O. Cox, president."

The Fidelity Trust company, which is capitalized at $11,000,000, is considered one of the strongest banking institutions in the southwest.

The Kansas City state holds $567,000 of the city's money.

Wiley Cox is one of the oldest and best known men in Missouri. He has lived in Missouri since 1868. In 1872 he was a clerk in the First National bank at Springfield, Mo., coming to Kansas City in 1881. From 1884 to 1888 he was engaged in general financial and loan brokerage business. He organized the Kansas City State bank in 1888 and has always served as its president. In 1896 he bought the Kansas City Times, a venture that did not prove successful and in 1899 he sold the paper.

Although the Fidelity Trust company bank checks on the Kansas City State bank were honored as far as presented, there was no show of commotion, and Charles Campbell, vice president of the Fidelity Trust company, stated that all checks drawn on the closed bank would be paid on demand.

Mr. Campbell declined to talk of the causes of the close of the bank.

Police Stop Church Riot.

Adams, Mass., Sept. 26.—A long-standing distagreement between parishoners of the St. Stanislaus (Polish) church here and the pastor, Rev. M. F. Kopythiewicz, culminated in a riot at the church doors during high mass. Stones were thrown and the police were forced to draw their revolvers before peace was restored. The dissatisfied parishioners marched to the edifice in a body and attempted to displace the regular collectors with collectors of their own. Captain of Police Curran and several officers, who had been summoned were forced to draw their clubs and dispersed the crowd.

Estranged from Wife; Killed Self.

New York, Sept. 26.—Assenting reluctantly to listen to one last word from her husband from whom she was estranged, Mrs. Henry Koch pressed her ear yesterday to the speaking tube leading from the vestibule of the apartment house where she lived in East New York. A second later she heard a muffled report and sprang back with a cry of fear. Hurrying down stairs the woman found her husband lying on the vestibule floor, shot through the head. Ten minutes later the doctors pronounced him dead.

Negro Kills White Man.

Nashville, Tenn., Sept. 26.—Jim Rives, a white man, is dead at Rives, Tenn., from the effects of a pistol wound inflicted by John Murrell, a negro. The latter claimed that the former was in the act of stealing his [illegible]

CHARGED WITH CONSPIRACY.

Manufacturers Violate Laws by Bringing Foreign Laborers Here.

New York, Sept. 26.—After eight months of careful preparation, the United States district attorney of this district, will, according to reliable authority, cause the arrest of eleven heads of manufacturing and contracting concerns of this city, on writs charging them with having conspired, through the medium of an employers' association, to violate the contract laws by the importation of foreign workmen.

The penalty is a fine of not less than $1,000 nor more than $10,000, or imprisonment for not more than two years.

It is understood that the department of commerce and labor is directing the prosecution and its agents, with the aid of secret service agents, prepared the case. This has involved many months of investigation, and the keeping since January last of four men, English tile setters, at Ellis island. It is upon the veidence of these men, backed by corroborative evidence, that the government chiefly relies.

CONFESSES TO TWO MURDERS.

Negro Held at Birmingham Breaks Down in "Sweat Box."

Birmingham, Ala., Sept. 26—William Ellis, a negro suspected of having committed half a dozen murders in as many southern states, broke down when placed in a "sweat box" by the Birmingham police and confessed to two of the murders. He says he shot a man at Somerset, Ky., 15 days ago, but did not know he was dead until told by the police. Ellis said that he had been tried and acquitted of murder in Greenville, Miss. The police doubt this, and have telegraphed the southern authorities.

In addition to these he is said to be wanted for murder in Barnwell county, South Carolina; Rockmart, Ga.; Calera, Ala., and a place in southern Mississippi. The chief of police of Somerset will reach here today, but complications may arise over the delivery of the negro to the Kentucky officer.

ACTIVITY AT VLADIVOSTOK.

New Life in Russian City Since Proclamation of Peace.

Vladivostok, Sept. 26—The old time business activity of this city has been rapidly returning since the proclamation of peace.

The inhabitants who left here during the troublous time, are returning, commercial and industrial life is resuming and foreign steamers and sailing vessels with freight are already arriving. Forty-five foreign steamers are expected from Hong Kong and Shanghai soon.

The municipal authorities have received inquiries from thirty American firms concerning the acquirement of business quarters at Vladivostok. Japanese firms are also coming in and are preparing to lease ground on which to erect buildings. Russians also are organizing companies to deal in far eastern products.

Italian Bureau Established.

New York, Sept. 26.—On recommendations by Count Saybaud Massigilia the Italian consul general, three large Italian charitable societies in this city have united for the purpose of establishing a bureau which will investigate all complaints made by Italians and all injuries done to Italians anywhere in the United States. The bureau will have the broadest possible scope and will bring to the attention of the government at Washington all matters which may involve international inquiry.

Brew Masters In Session.

Cincinnati, Sept. 26.—Several hundred delegates to the seventeenth annual convention of the National Association of brew masters had arrived in the city before the hour set for the opening of the convention today Every state in the United States is represented, and between 500 and 650 delegates are looked for. Although the afternoon a preliminary business session of an informal nature occupied the morning. Questions of considerable importance are to come up for

TERMS OF TREATY ARE MADE KNOWN

Separation Document Ready For Ratification.

TEXT OF PROTOCOL AS SIGNED

Treaty Must Be Ratified by Parliaments of Norway and Sweden—Document Consists of Five Main Articles and Thirty Five Clauses.

Stockholm, Sept. 26.—The Associated Press has succeeded in obtaining the text of the protocol signed at Karlstad Saturday by the Norse-Swedish commission which became a treaty when ratified by the two governments. The protocol arrange the terms for the dissolution of the union of Norway and Sweden, subject to the ratification of the Storthing and Storthing.

The historic document which will become atreaty when ratified by the two parliaments consists of five main articles and 35 sub-clauses.

The first article deals with arbitration, the second with the neutral zone and the demolition of the fortifications, the third with a reindeer pasturage, the fourth with international [illegible] agreement also provides for the compulsory arbitration before the Hague court of all disputes except matters of vital interest, for the period of a decade with extensions for other periods of ten years unless two years previous notice is given of an intention to abrogate it.

The treaty provides for a neutral zone on either side of the frontier which shall forever be neutral and for the demolition of the fortress within that zone with the exception of the [illegible] of the fortifications in Fredriksten, Gyldenloeve and Overbygningen which remain, but which are not to be used as fortifications.

A headquarters' staff and garrison may be maintained at Fredriksten to the same extent as prior to the erection of the new fortifications. No extension of the Kongsvinger group of fortifications will be permitted nor of the new forts erected within ten kilometers of the old fortress of Kongsvinger.

INVADER SHOT BY WOMAN.

Man Forced His Way Into House and Terrified Occupants.

New Lebanon, Conn., Sept. 26.—Stephen M. Crocker, a member of a well known New London family, is at the medical hospital in a serious condition as a result of a pistol shot received while he was terrorizing the family of George Bindless at their home in this city.

Late last night Crocker went to the Bindless home, pushed past the servant and met Mrs. Bindless and her daughter, Miss Stella Bindless. Their refusal to speak to him angered him and for several hours he had them in a state of terror.

Mrs. Bindless tried to get to the telephone to summon her husband or the police, but Crocker interfered.

Mrs. Bindless, about 4 o'clock this morning, went to her husband's room and secured her husband's revolver to protect herself. As he came down the stairs she saw Crocker [illegible] her daughter and in her [illegible] the revolver she held went off [illegible] er turned on Mrs. Bindless and in the struggle the weapon was [illegible] again, and the bullet entered [illegible] inflicting a wound that probably will cause his death.

Stoned and Beat Negro.

Williamston, W. Va., Sept. 26.—Breaking into the city jail [illegible] armed masked mob of "white cappers" took out Moses Lovers, a negro, serving out sixty days for assaulting James Butler. Taking Lovers and Thomas Blackburn, the only other prisoner, across the river in a boat, on landing the mob whipped and then stoned Lovern until he was presumably dead. Both prisoners were returned to jail. Lovers will die. Blackburn gave the names of eight men in the mob, and Prosecuting Attorney [illegible] has issued warrants for

HEAVY TRAIN ON THE SEABOARD

Train With Fifty-Two Cars and Two Engines Passed City.

NEARLY A HALF-MILE LONG

It Shows That People of the State Are Again in Good Condition, and That They are Prosperous—One of Longest Trains for Years.

Probably the longest and heaviest freight train ever carried through Gainesville, either before or since the fatal freeze, which dates in a commercial way the existence of our State, was that which passed south over the Seaboard Air Line Tuesday afternoon.

The train was one of the longest and heaviest ever pulled in the State, comprising fifty-two cars, two engines and caboose, which made a train nearly a half-mile long.

Another astonishing feature of this train was the fact that every car was either full or partially loaded, and was consigned from forty-seven different points in the United States to Gainesville and stations on the Cedar Key and Early Bird divisions of the Seaboard.

The Seaboard is enjoying an excellent freight and passenger traffic now, which is evidence that the State is prosperous. The day has passed when the people are dependent upon whatever may "turn up" for a living. The farmers and fruit growers are doing well, the merchant prospers, and as a whole the State is in the best commercial condition it has ever been.

Florida is not only in a healthy commercial condition, but the State is growing rapidly in population, and vacant lands are being taken up and cultivated everywhere. People from other States are becoming to recognize the advantages offered here, and are availing themselves of the opportunity to come to Florida and live with ease and luxury with less exertion than in other places. This does not mean that they will probably not have to work as hard, but the harvest will prove so much more prolific with the same labors.

A TREE ADORNED.

A Spider Weaves a Beautiful Silken Web About Its Trunk.

At the south end of East Main street stand a good-sized wild olive tree, which is about two feet in diameter and apparently in a healthy condition. It was noticed a few days ago that this tree was adorned with a network that surpassed the famous Battenburg lace for fineness, and on inspection it was discovered that a spider had woven a fine web around the entire trunk of the tree from the ground to the limbs, a distance of some 12 or 15 feet. The entire trunk is completely covered with his fine silken net and it looks very odd, the webs extending on some of the branches.

The work speaks well for the industry of the spider, as he certainly must have been busy during the summer days, early and quite late. But he probably never looked at the clock once during the time, and at last reached the top. An example of persistence.

POPULAR PEOPLE MARRY.

Two Young People Who Marry Are Greeted by Many Friends.

The marriage of Charles Victor McKinstry and Miss Janie Taylor occurred at the First Presbyterian Church in this city at 7 o'clock Tuesday morning and was one of the swellest and most up-to-date events in the matrimonial line that has transpired in Gainesville for some time.

The friends of Mr. McKinstry and Miss Taylor have been anticipating for some time this delightful function, which was the result of the large attendance, notwithstanding the hour was early.

The church was handsomely decorated in floral designs and those present appreciated the designs in exclamations of enjoyment.

The bride was attired in a traveling dress of silk, octoroon brown, while the groom wore the conventional black. When they entered under the strains of Mendelssohn's wedding march it was natural that all eyes should be turned upon them.

Rev. Thos. P. Hay of the First Presbyterian Church performed the ceremony in a very appropriate manner. At the conclusion of the service and after the congratulations of friends, Mr. and Mrs McKinstry left for Jacksonville and points on the East Coast, where they will spend their honeymoon.

The groom is a son of Dr. and Mrs. J. F. McKinstry, Sr., and very prominent here, being engaged in the mercantile business. The bride is one of Gainesville's fairest young ladies, a daughter of Mr. and Mrs. A. W. Taylor, and has many friends in this city who will wish her well.

GAME IS PLENTIFUL IN GULF HAMMOCK

Huge Bear Captured and Almost Killed a Young Calf.

HOTEL WILL SOON OPEN

Under New Management, and Will be Conducted on an Up-to-Date Scale. Fishermen and Hunters Coming After Game—New Fishing Camp.

Gulf Hammock, Sept. 25.—Autumn is here, as everything denotes. The wild flowers are in bloom and the bright little yellow butterflies are flitting about from bush to vine in such a merry way that it makes life worth the living just to look upon the merry little insects and flowers.

Mrs. Loula Thomas of Jacksonville has taken charge of the Gulf Hammock Hotel for the winter, and will put new life in the old house. Mrs. Thomas will have chambermaids, cook, and general help that are so badly needed here, and Gainesville people can count on being well fed and roomed, when the come down to kill a Gulf Hammock deer.

H. G. Cassels and a colored man, while out hog hunting last Tuesday, found where a large bear had just caught and crippled a calf. The bear had run the calf some little distance before he overtook it. The calf was down helpless, badly bitten through the shoulders and neck. There is not a bear dog in the Hammock, so "Br'er Bear" roams around at will. This calf was caught within a mile of the post-office, so we will send a standing invitation to Sheriff Fennell to come down with his cat dogs and have a bear hunt.

Misses Brenner and Tonnerlier are at the hotel assisting Mrs. Thomas in arranging the house for the October opening.

Wagons from the pine woods are coming in pretty often for their fall supply of fish. This is a great place for hunters to come every fall for game and fish.

The Gainesville Fish Company, with J. L. Chesser manager, are putting in one hundred and sixty of Cassel's patented fish traps, besides having several men employed to fish with nets. They are going to haul their fish to Otter Creek and ship from that point.

H. Waters and C. Waters returned home Thursday from a business trip to Evinston. They moved into the hammock in August from Evinston and are hewing themselves out farms in Gulf Hammock. We welcome all such people here.

Not a Messenger Boy.

A beggar accosted a man on the street the other day and poured out a tale of woe, to which the gentleman patiently listened. Then he took out a card bearing his name, which was that of a well known philanthropist who contributes largely to an organization working for the relief of the poor. This he handed to the man after writing an introductory note thereon. The beggar turned away with disgust written on his face and the parting remark:

"Say, d'ye t'ink I got time to beat it up to dat joint? I'm too busy workin' dis pike to waste me time dat way. Wot d'ye t'ink I am—a messenger boy?"—New York Times.

Her Tremolo.

"Ah, how I love to hear your daughter sing!" said Archie as he waited in the parlor. "She's practicing her exercises now, isn't she? What a beautiful tremolo."

"No," replied the mamma scornfully. "She has had the sore throat for three days. She's taking a gargle."—Indianapolis Star.

Sprains.

S. A. Read, Cisco, Tex., writes, March 11, 1901: "My wrist was sprained so badly by a fall that it was useless; and after using several remedies that failed to give relief, used Ballard's Snow Liniment, and was cured. I earnestly recommend it to anyone suffering from sprains." Sold by W. M. Johnson.

Spelled With a "V."

Frank Millet's baby was christened in London when Hutton and Lawrence Barrett were present. The child was to be named Lawrence, and Barrett spelled it out "Lawrence," as his name was spelled. Hutton immediately corrected him with "Laurence," as his own name is spelled. And they shouted this at each other, to the amazement of the parish clerk, till Mr. Millet stopped them, with the remark that the father ought to have something to say and, turning to the clerk, said, "Spell him with a 'v.'" And Lavrence Millet he was made by law.—Christian Register.

Civilization and the Kaffir.

On bare feet, of which the skin grew so tough as to enable him to run over the sharpest rocks without flinching, the old Kaffir could easily walk, as fast as a horse trots, fifty miles a day. The Kaffir who still goes barefoot can do so today. He used likewise to be able to get a light—the "boy" who is constantly bothering one now for matches—by rubbing two sticks together. Now he is as helpless in the dark as ourselves.—Pall Mall Gazette.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without using soap and water?

If you did what would you say to him?

It is every bit as foolish to try to get rid of Dandruff and to promote cleanliness by feeding the germs that cause it, with Canthrarides, Vaseline and similar substances, which are the principal ingredients of so-called Hair Vigors.

Newbro's Herpicide is a success because it attacks and kills the Dandruff germ which feeds on the hair and scalp.

It is the original and genuine scalp germicide manufactured.

ISRAELITES WILL OBSERVE EVENTS

New Year and Yom Kippur Will be Observed in Gainesville.

TWO IMPORTANT OCCASIONS

The Former Represents the Time of Joyfulness and Gladness, While the Latter is the Most Solemn Problem in the Hebrew Faith.

The closing days of the month of September and the opening days of October, embrace two of the most important observances in the Jewish faith. These are the New Year or Rosh Hashona, and the Day of Atonement, or Yom Kippur.

The former represents the time of joyousness and gladness, commemorating one of the greatest victories of the race, while the latter is the most solemn period in the Jewish faith, and is observed with fasting and religious observances. In fact, both days, as is customary with all Jewish observances, are founded on religious tenets, and religion finds appropriate expression in each of them.

The first to make its appearance is New Year's, or Rosh Hashona, which commences at sunset on September 6th, and ends with sunset on September 8. It will mark the commencement of the Year 5666 of the Jewish calendar.

The celebration of New Year among the Jews marks a calendar anomoly, although easily explained and readily understood. The New Year's day comes in the seventh month of the Jewish calendar, called Tishri, instead of Nisson, the first month.

The reason for this is the fact the day commemorates the end of the long and trying period during which the people of Israel were held in bondage. In Leviticus the admonition of the Lord to Moses is found, commanding the establishment of a new day of commemoration on the third day of the seventh month, and the great prophet-leader of Israel made this great celebration the commencement of the Jewish year.

The Pentateuch is read during the religious services held on this day and trumpets are blown as they have been blown in the long thousands of years since the divine command was transmitted to the law-giver of the Jewish people.

Ten days after the New Year comes the Day of Atonement or Yom Kippur, and these intervening days are called the Penitential Days. Yom Kippur is the most solemn period of the Jewish year and is the time when Jews ask pardon of God and man.

It is during the Yom Kippur time that the solemn observances commemorative of the dead take place and all the faithful in Israel fast during a period of twenty-four hours.

As is usual with the race, both occasions will be observed in this city, as the Jewish population of Gainesville as a rule are as loyal to their religion as any in the world.

IS EXTENDING BUSINESS.

Gainesville Fish Company Will Establish Camp at Gulf Hammock.

The Gainesville Fish Company, of which John L. Chesser is manager, which has been engaged in the fishing business at Alachua Sink for the past two years with great success, finds the demand so great that the supply from this camp is inadequate, and as a consequence has decided to establish another camp at Gulf Hammock, five miles distant from Otter Creek, which will be the shipping point.

Few people realize the importance of the fishing industry in this vicinity. Mr. Chesser stated that the demand is so great he could dispose of five carloads per day if he could get them. This firm ships fish to points all over the lower South.

HAS COMPLETED HOME.

Judge Arnow Has One of the Prettiest and Best Houses in Gainesville.

Judge George J. Arnow, postmaster, and for the past quarter of a century a resident of Gainesville, believes in living. It has been demonstrated in the last two or three months. He has succeeded in erecting on South Oak street one of the handsomest and most modern structures in the city. The Judge expects to move into his new home in a few days, and will be glad to see his friends.

BUILT UP HER HEALTH

SPEEDY CURE OF MISS GOODE

She Is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Miss Cora Goode, 355 E. Chicago Avenue, Chicago, Ill., believes it her duty to write the following letter for publication, in order that other women afflicted in the same way may be

Miss Cora Goode

benefited as she was. Miss Goode is president of the Bryn Mawr Lawn Tennis Club of Chicago. She writes:

Dear Mrs. Pinkham:—

"I tried many different remedies to try to build up my system, which had become run down from loss of proper rest and unreasonable hours, but nothing seemed to help me. Mother is a great advocate of Lydia E. Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, faintness indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. Address, Lynn, Mass.

THE NEWS FROM MELROSE.

Interesting Meeting of Temperance People—Other Notes.

Melrose, September 26.—The temperance rally for Putnam and Clay counties, held at the town hall on Thursday, p. m., was well attended. Geo. W. Riles presided and the principal speakers, Rev. J. D Kendrick of Lake City and L. R. Lynn of Palatka, made some very excellent points in favor of the temperance cause.

The Webb cottage on Center street is being much improved and will be occupied by Dr. F. K. McRae in the near future.

Mrs. F. O. Parker and baby are visiting her mother, Mrs. J. Moore.

Keiffer pears are still being shipped, although the returns are not very satisfactory.

Mr. and Mrs. F. S. Carrier have returned from Asheville, N. C; also Mr. E. F. Ford and family from California.

At a special council meeting held on Thursday, M. S. Baldwin was elected to fill the unexpired term of councilman, vice W. A. Vogelbach, resigned. The street committee was instructed to secure bids for mending sidewalks and removing the weeds, and submit the same at the next regular meeting, October 3rd.

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. J. W. McCollum & Co.

Cats' Eyes.

What is the correct color for cats' eyes as related to the color of the cats? is the question which has been answered as follows: A black cat or one known as a "blue" cat should have amber or orange eyes. White cats must have blue eyes, chinchillas green, though orange are permissible; orange, cream or fawn cats must have orange or hazel eyes; smokes, orange eyes.

HE TOOK LONG CHANCES.

But the Tailor's Anxiety and Bill Were Both Finally Settled.

The doctor of an English regiment stationed in India received a letter from his tailor inclosing a long overdue account and concluding with a polite inquiry after the debtor's state of health. The sawbones replied thus:

"I have received your hypocritical letter hoping that I am in a good state of health. Hear, then, what your chances of my living long enough to be able to pay your bill are. I attend assiduously every cholera case in the camp, and I am making smallpox a special study. I swim every morning in a lake swarming with alligators. At a recent attack on a hill fort I went with the forlorn hope and was one of the three who returned unwounded. Tomorrow morning I shall go unaccompanied and on foot into the jungle and wait for the man eating tigress as she returns at dawn to her cave and cubs. If it be she who falls I shall spend my leave in the fever haunted jungle following up big game, and if I survive that I shall cool myself after its heat by joining a party to ascend the peak of Dhawalagiri, whose snow slopes and glaciers are as stiff as your prices."

The doctor eventually returned home in safety, and the tailor's anxiety and his bill were both settled.

Jealous of Imaginary Ills.

"Talk of a woman's jealousy of her husband," said a physician of long experience in New York. "It is nothing compared to her jealousy of another woman's chronic ailments. Half the doctors would starve if it were not for the prevalence of illnesses that are purely imaginary. Of course, it does not do for us to tell a woman who has firmly made up her mind that she is ill that she is not ill. In nine cases out of ten she would lose her temper and consult another doctor. Among certain women invalidism gives them a distinction which is gratifying to their self love. They may literally be said to 'enjoy poor health.' They look for the doctor's visit to them or their call at his office as the most exciting event of the day. If they know him well enough, they implore him to waive professional etiquette and tell them about ailments of other women who consult him. Women of this description—and they are legion—have a craving for martyrdom, which doctoring an imaginary illness seems to satisfy."—New York Times.

The One Person.

There was a certain old New England minister who had a blunt way of getting right at the bottom of things. With a solemn air he announced from the pulpit one day that a button had been found in the collection. "Only one individual in the church could have been guilty of this trick," he said, "and I shall expect this person to replace the button with a coin." After service a member of the church owned up to being the culprit and asked: "How did you know I was the man?" "I did not know," said the clergyman. "But you said only one person could have done it." "Just so," was the reply. "Two persons could not have put the same button on the plate."

THE DOG'S COAT.

Brush It, but Do Not Wash It, If You Want It Perfect.

In the Country Calendar Reginald F. Mahew writes: "Even careful feeding will not give a dog's coat that glow which is such a sure sign of health if he is continually washed with soap and water. Owners who allow their dogs to live in the house are forever washing the wretched animal and forever complain that his coat is coming out. The oftener the dog is washed and scrubbed the more will his coat leave its trail and the deader and duller will it look. The health and growth of a dog's coat depend entirely on a natural oil from the skin. As often as the dog is washed so often is the oil washed out and so much more is the destruction of the coat. If a dog were brushed every day for five or ten minutes against as well as with the grain his coat would not only have a luster, but would cease to distribute itself all over the place except for a very short time once or twice a year. Besides this, brushing has a stimulating effect on the whole system, helps the blood circulation; by this the digestion, and so the general health."

During a trial in Ocala in which a man and wife were defendant and complainant respectively, one of the lawyers sang "Home, Sweet Home." The jury decided that if the man had made the home half as bad as the song was rendered, he was guilty of an outrage on "Home, Sweet Home," and found him guilty.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber of Sandy Level, Va. PUBLIC HEALTH ASSOCIATION.

Physicians from Many States Hold Meetings in Boston.

Boston, Sept. 26.—Physicians, surgeons and bacteriologists from all parts of the United States and from Canada and Mexico have come to this city to attend the thirty-third annual meeting of the American public health association which opened today and will continue until Friday night.

A wide range of subjects for discussion touching the preservation of public health has been prepared. Section meeting were held today at the medical library in the Fenway.

The convention propery will hold its opening sessions tomorrow and all its general meetings will take place in Association hall in the Young Men's Christian Association building in Royl-ston street.

A public reception will be tendered the delegates on Tuesday. On Wednesday and Thursday there will be excursions to points of interest, in addition to the business sessions. Friday will be devoted to reading and discussion of papers.

The president of the association, who will preside at the meetings, is Dr. F. F. Westbrook, of Minneapolis, Minn.

WAR ON WIFE DESERTERS.

The Practice Has Become so Commonplace that it Must Be Stopped.

New York, Sept. 26.—Wife desertion on the East Side has become so common that a movement was started yesterday among leading Hebrews of that quarter to check the evil. Organizations with this end in view are to be formed and a system of following up and causing the arrest of men who desert their wives and families will be established.

It is intended that the real work of the organization shall begin at once, but that its effects will be effected early next year. An act has been passed by the legislature making wife desertion a felony, but it does not go into effect until the end of the current year.

Under this act it will be possible to extradite deserting husbands from other states. All the charity organizations on the East Side which have been called on to care for thousands of women and children each year, will help in the campaign.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostrate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostrate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

Tragedy at Kentucky Dance.

Maysville, Ky., Sept. 26.—Henry Edwards, aged 23, was shot and instantly killed last night at Lewisburg, this county, by Clarence Turner, aged 20. There was a dance in progress and Edwards went to the place and wanted to dance with a girl there who had been dancing with Turner. Turner objected. Both began firing at each other at close range, which created a panic, men and women climbing out of windows and dropping to the ground, bruising themselves considerably. No one else was struck by the bullets, and when the shooting was over, he staggered to the door, where he fell dead. Turner is in jail here, claiming self-defense.

Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. Mrs. Wm. M. Stroud, Midlothian, Tex., writes, May 31, 1901: "We have used Herbine in our family for eight years, and found it the best medicine we ever used for constipation, billous fever and malaria." Sold by W. M. Johnson.

$1,000,000 Fire in Butte, Mont.

Butte, Mont, Sept. 26.—Fire, causing a loss estimated at $1,000,000, consumbed the entire business portion of Butte lying between the Shodair block and Renshaw alley, on the south side of West Park street, and partially destroyed the public library. The fire call was turned in at 8:40 a. m. At noon the four-story Symons store was a mass of flames, and the public library and other places were burning simultaneously. Had the blaze once crossed Main street into the old buildings on the north side of Park street, or had it not been checked at the Renshaw block, the loss would have been much greater.

Linemen Are Electrocuted.

St Paul, Mill., Sept. 26.—Jesse Donahue, of Minneapolis, and Harry Ripson, of Cuba, Mo., members of a gang of telephone linemen constructing a line between St. Paul and Stillwater, were electrocuted Sunday. Ripson was at the top of a pole holding a measuring tape, while Donahue, on the ground, held the other end. The tape line was of linen, but had running through it two slended wires. It came in contact with a heavily charged power cable and both men received the full charge of the current, killing them instantly. Ripson fell from the top of the pole and his neck was broken.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Emperor Receives Memorials.

Tokio, Sept. 25.—5 p. m.—The emperor is giving personal attention to the memorials presented to him against the terms of the peace arrangements with Russia. These memorials now number nearly 100. The agitators who are trying to interview privy councillors have refused to ratify the treaty of peace, and the public view is almost unanimous in demanding the resignation of the cabinet. Even the moderates do not conceal their grief at the result of the negotiations.

Attacked by a Mob

And beaten in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve and was soon sound and well. "I use it in my family," writes G. J. Welch of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 25c at all drug stores.

THE COMING BOND ELECTION.

There is no doubting the fact that there is considerable opposition to the proposed issuance of bonds for the purpose of buying the electric light and gas plant, or the construction of an independent plant to be operated by the city. The general opinion is that this question should be submitted to the people separate from the question of bonding for sewerage and street improvements. To the latter there is no opposition whatever, for the people realize the great necessity for these improvements. It has been suggested to the editor that the people are perfectly safe in voting for the issuance of bonds as proposed by the ordinance to be submitted on October 10th, for the reason that the electric and gas plant now owned and operated by a private corporation cannot be purchased for the sum proposed, and that it would not pay the city to put in an independent plant, hence the proposed fifty thousand dollars in bonds for that purpose would not be issued. This is a matter for the voters to decide. We are not sufficiently versed in the revenue derived from the gas and electric light plant to be able to advise the voting for or against bonds for this purpose. The matter will be presented pro and con before election day, and the responsibility for the result of the election will rest with those who exercise the right of franchise which has been conferred upon them by the laws of the land.

A NEW ANÆSTHETIC.

To an eminent Georgian is due the credit for the discovery of anæsthesia, the greatest boon ever given suffering humanity, says The Atlanta Constitution. In these days of painless surgery, little thought is given the horrible sufferings of those earlier days when such a thing as an anæsthetic was unknown.

The attention of the medical world has just been drawn to a new anæsthetic for which wonderful properties are claimed. This is called "scopolamine," and Philadelphia dispatches tell of some remarkable results obtained from it.

This is said to have marvelous properties. One thirty-second of a grain is all that is necessary to produce unconsciousness. The drug is injected hypodermically, the patient falls asleep in the most natural way and knows or feels no disturbance even after he awakes. This is usually five hours after the anæsthetic has been used.

In the experiments at St. Agnes' Hospital, Philadelphia, the surgeons do not begin their operations until about two hours after the injection of the fluid, and it is claimed that the best possible results have been obtained.

SCHOOL FOR FARMERS.

The agricultural college is established to give young men a practical education in farming, and where these colleges are properly conducted they have been of great benefit. On a well managed experimental farm the various crops can be produced to show which are best adapted to the various soils.

In Kentucky an important step is being taken by the corn growers and those who are introducing alfalfa. A special train, which might be called an itinerant school for farmers, has been started on a tour of the State, for the purpose of instructing the farmers of that State in the best and most scientific methods of raising alfalfa and corn. The train, which was furnished by the Louisville, Henderson and St. Louis Railroad Company, consists of President Attila Cox's private car, a day coach, baggage car and engine, and is decorated with streamers bearing the inscription, "Kentucky Alfalfa and Corn Special."

According to the program the train will stop for thirty minutes at a time at various points along the line. At each place where the train stops lectures will be delivered on the culture and growing of alfalfa and corn, and booklets specially prepared on the subject will be distributed among the farmers attending the lectures. Good speakers are provided for the occasion.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

BROWN IS PRESIDENT.

We take pleasure in announcing to the public that Col. Thos. J. L. Brown, president of the State Fair Association at Tampa, has reconsidered and withdrawn his resignation from that position, and is now determined to work harder than ever for the success of the great State Fair, to be held November 15 to 30. Col. Brown has successfully managed the great Tampa Bay Hotel several years, and although his bid was higher, the property was recently leased by the Board of Public Works of Tampa to other parties, making it necessary for Col. Brown to take up other business propositions in New York. However, in view of the great amount of money already spent in promoting the Fair, and in view of the further fact that hundreds of friends throughout the State have asked him to remain, Col. Brown will do so, and respectfully requests the entire State to give a hearty support to the movement. Everybody should feel an interest and work for the success of the Fair.

The people of Florida sympathize with suffering Pensacola in their hour of affliction, but it seems as though those who are struggling with fever would stay at home and take their medicine rather than disobey the orders of Dr. Porter, thus making matters worse.

The Fraternal Record, published at Jacksonville by our good brother, J. W. White, is the handsomest fraternal paper that is published North or South. It is ably edited, well printed on fine book paper, and there is nothing about it but what shows the hand of the artist.

As whitewash is made of lime and lime is used as a disinfectant, we suppose that is the reason so much whitewash is used on government officials. But there are some we are afraid will have to be cleansed with sulphur.

The American Bankers' Association will meet in Washington, and we advise them to not issue any checks for board, etc., as they may be too large for them to handle when they reach home.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

AMUSING JOKES.

Some That Have Been Played on Members of Scientific Societies.

Nothing is so funny—to the joker—as the development of a practical joke or hoax, and the most learned are sometimes fooled in this way, to their great discomfiture. An amusing hoax was perpetrated on the learned members of the Dumfries Antiquarian society of London, when an alleged Greek charm, said to have been taken from the dead body of a Bedouin, was presented for their inspection and admiration. It was said to have been an heirloom in the Bedouin's family for many centuries and consisted of a scrap of skin on which was transcribed a mysterious legend. It was circulated among the members of the august body of the Antiquarian society until it fell into the hands of Dr. Semple, who, amid much amusement, deciphered the hieroglyphics as "Old Bob Ridley, O," the refrain of an old song.

One of the best of these jokes was practiced with considerable success by an eighteenth century wit, who professed to have unearthed an ancient memorial slab on which this epitaph was just decipherable:

BENE A. TH. TH. 1SST.
ONERE. POS. ET.
H. CLAUD. COS TER. TRIP
E. SELERO, F. IMP.
IN. GT. ONAS, DO.
TH. HI. S.C.
ON. SOR. T. J. A. N. E.

In vain did archaeologists and linguists rack their brains to find a solution of this cryptic inscription, which its discoverer "humbly dedicated to the penetrating geniuses of Oxford, Cambridge, Eton and the learned Society of Antiquaries," and it was only when it had driven the cleverest men in England almost out of their wits that the following reading was suggested by the hoaxer: "Beneath this stone reposeth Claud Coster, tripe seller, of Impington, as doth his consort Jane."

That, too, was a clever, if rather heartless, joke which Steevens, the Shakespeare scholar, played on Gough, known to posterity as the author of "Sepulchral Monuments." Gough had criticised a drawing by Steevens rather mercilessly, and the latter forthwith planned a revenge which should hold up antiquity to ridicule. Procuring a flat piece of stone, he scratched on it, in Anglo-Saxon characters, the inscription, "Here Hardcnut drank a pint-horn dry, stared about him and died," and had it exposed in a shop which Gough was in the habit of visiting.

A few days later Gough called at the shop, saw the slab, which, he was told, had been found in Kennington lane on the supposed site of Hardicanute's palace, and, overjoyed at his good fortune, carried it off in triumph as a discovery of rare antiquarian value. He showed it with pride to his fellow members of the Society of Antiquaries, a paper was written on it, a learned discussion followed and the inscription was published in the Gentleman's Magazine. Steevens' triumph was complete when he took the public into his secret and laughed with them, but what his victim's feelings and language were it would not have been possible to express in print.

Something over fifty years ago the ingenuity of antiquarians was tested by a legend faintly traced on a time worn slab of stone which, so its discoverer said, had been unearthed during some excavations in Cumberland. This was the inscription:

TH. ISI. SAHAR. DNU. TOC. RA
C. K.

But what language was it and what could it mean? The accepted opinion was that the legend referred in some way to Hardicanute or Hardnut, but beyond that speculation even was dumb, until the wicked joker had the effrontery to confess that he himself had chiseled the inscription, of which the true translation was: "This is a hard nut to crack." And so it was.—London Answers.

The Difficult Persian Tongue.

Of the difficulties in the language of Persia a traveler writes: "The words one uses in a letter are almost entirely different from those used conversationally, and those in an ordinary prose history are again different. Then it is almost impossible to distinguish the tenses, and, lastly, the adjective is generally indistinguishable from the substantive, and the link between an adjective and the term which it qualifies is the same as the sign of the possessive. For instance, the text, 'This is my beloved son,' may be read in the Persian Bible 'This is the son of my beloved,' without the slightest violence to the grammar."

Origin of One Graveyard.

The family of a member of parliament from Yorkshire has a private graveyard and has had it for several generations. The founder of it was a Quaker, and the rector of the parish in which he lived said to him after a dispute on religious matters: "Well, if you don't come to church when you are alive, you will when you are dead." But the Quaker thought otherwise and

FEW "SELF-MADE" MEN.

Chicago Professor Declares They Can No Longer Be Manufactured.

Chicago, Sept. 26.—The era of the self-made" man is on the wane. The efficiency can no longer be manufactured or home-made. Competition of the present day is too much for the self-made man.

So holds Professor Nathaniel Butler, principal of the school of educational department of the university of Chica go, who spoke yesterday at the closing session of the twentieth annual convention of Chicago.

The subject of his address was "Education as a factor of efficient manhood." Professor Butler spoke in the place of President William R. Harper, who was too ill to attend the session.

"Term 'self-made man' is a mere fallacy," Professor Butler declared. "The self-made man's success is due only to unusual ability. Efficient manhood—the manhood that ought to be offered to the world—no longer can be home-made. In this time of competition, the world is willing to pay the highest price for the efficient man just as for articles of commercial use."

VENGEANCE WAS THREATENED.

Chicagoans Wanted to Mob Negro for Running Over White Boy.

Chicago, Sept. 26.—Surrounded by a crowd of excited pedestrians all threatening vengeance, Arthur Stewart, a 16-year-old negro, was held prisoner until the arrival of two policemen last night after having knocked down and probably fatally injuring Louis W. Einberg, 10 years of age, while driving an automobile at Twenty-sixth and State streets.

In the automobile at the time of the accident were Mary Stewart, the mother of the chauffeur, and William Holliday, of Milwaukee, owner of the machine. They also were prevented from leaving the scene of the accident, although when the police arrived young Stewart was considered to be the only person to blame.

The injured boy was taken to a hospital, where the physicians say he may die from his injuries.

Abscess.

Abscesses, with few exceptions, are indicative of constipation or debility. W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world." Sold by W. M. Johnson.

Large Masonic Gathering.

Nashville, Tenn., Sept. 26.—Members of the Scottish Rite will have charge of the Masonic temple here all this week. Degrees from the fourth to the thirty-second will be conferred on candidates and Masons from several states will be in attendance. Delegates from Arkansas, Florida and North Carolina arrived today and the others will be here later. Admiral Schley was to have been present, but a letter from Mrs. Schley to Major J. H. Richardson, sovereign grand commander of the supreme council, Ancient and Accepted Scottish Rite, today stated that Mr. Schley is ill and will be prevented from attending. Two hundred members of the order will witness the conferring of degrees.

Chattanooga, Tenn., Sept. 26.—The battalion of the Twelfth cavalry, companies I, K, L and M, arrived this morning at Fort Oglethrope, after a three weeks' journey from the Philippines and the regiment is now a unit. Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from the fact that their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. Sold by W. M. Johnson.

Army Officer Commits Suicide.

Atlanta, Sept. 26.—Captain G. C. M Godfrey, assistant surgeon, U. S. A. committed suicide at his residence on Officers' Row, Fort McPherson, by blowing out his brains with an army revolver. Captain Godfrey was the son of Colonel E. S. Godfred, commanding officer of the Ninth cavalry, now stationed at Fort Riley, Kans. Captain Godfrey is survived by his wife and one child, a boy. No cause for the suicide can be ascribed, unless it be temporary mental aberration, the belief that is general among the officers at Fort McPherson.

China Boycott Waning.

Washington, Sept. 26.—Consul General Rodgers at Shanghai, cabled the state department today as follows: "There is no longer any evidence of boycott conditions in or about Shanghai, and American trade is active, particularly with the northern part of China, and there has been no stamping of goods 'boycott marks' as was reported. On the whole, the conditions of affairs seems to be satisfactory."

Fire at University of South.

Sewanee, Tenn., Sept. 26.—The big stone building containing the university supply store, the professors' club, the local bank and the office of R. M. Dubose, the university treasurer, was destroyed by fire early Sunday morning. The total loss is estimated at $25,000, with insurance aggregating $15,000.

Are You Engaged?

Engaged people should remember that, after marriage, many quarrels can be avoided by keeping their digestions in good condition with Electric Bitters. S. A. Brown of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once and finally made her entirely well. She is now strong and healthy." Sold at all drug stores and guaranteed, at 50c a bottle.

Printers Win in Sixty Six Cities.

Indianapolis, Ind., Sept. 26.—A bulletin issued from the office of the International Typographical Union shows that 224 subordinate unions are now working on an eight-hour day basis, or have arranged to do so not later than January 1, 1906. Since September 4 such agreements have been signed in sixty-four cities.

A Clear Complexion and Bright Eyes

In most cases a sallow, blotched complexion and dull heavy eyes are due to poor digestion and an inactive liver. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels and makes the complexion smooth and clear. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

A Startled Guest.

Mme. Patti took elaborate precautions against burglars at Craig-y-Nos, her castle in Wales. A guest there who was spending a sleepless night rose before dawn to open his bedroom window. Immediately there was a violent ringing of bells in different parts of the castle. The visitor made his way downstairs, only to find himself in imminent danger of being lacerated by a whole troop of snapping and snarling dogs. It turned out that he had unwittingly set the diva's patent burglar traps going, the dogs being released from their chains by an electric connection with the window.
